

# PALLET BASE

- **EckPack PALLET BASE: Made in Germany.**
- **EckPack PALLET BASE: Made for TRIO.** EckPack Pallet Base is designed for the TRIO corner and is available in two versions: Pallet Base and Slim Base.
- **EckPack PALLET BASE for double stacks.** The PALLET BASE elements allow easy double stacking. It is very easy to put a second pallet on top of PALLET BASE.
- **EckPack PALLET BASE for SSD Stacks.** If a PV production needs Sunny Side Down storage (e.g. for fixing the junction box), this element can be placed at the bottom of the pallet. This way, TRIO SSU corners can be used for SSD applications as well.
- **EckPack PALLET BASE saves cargo costs.** Full use of truck and container capacity!
- **EckPack PALLET BASE saves money.** PALLET BASE fits any TRIO size. Multi usage costs less than one-way waste.
- **EckPack PALLET BASE is very strong.** One 40g element carries up to 250kg. Long life is guaranteed.
- **EckPack PALLET BASE is re-usable.** Reusing reduces waste at construction site. Packaging reduction reduces CO2 emissions. Blue Angel Award demonstrates responsibility.
