

- **EckPack SOL-FIT : Made in Germany.**
- **EckPack SOL-FIT transports safely.**  
Modules are placed apart from each other.  
Each module just carries its own weight.  
No transport damage by dynamic peaks.
- **EckPack SOL-FIT needs less space.**  
Huge cardboard boxes are yesterday.  
Individual stacking outperforms fixed size.  
Easy splitting of deliveries is possible.
- **EckPack SOL-FIT saves cargo costs.**  
Full use of truck and container capacity!
- **EckPack SOL-FIT protects the profile.**  
No more damage of the aluminium profile  
at the construction site.
- **EckPack SOL-FIT saves your money.**  
One element fits any module size.  
Multi usage costs less than one-way waste.
- **EckPack SOL-FIT is very strong.**  
One 30g corner carries up to 250kg.  
Long life is guaranteed.
- **EckPack SOL-FIT is environments friend.**  
Reusing reduces waste at construction site.  
Packaging reduction reduces CO2 emissions.  
Blue Angel Award demonstrates responsibility.
- **EckPack SOL-FIT allows horizontal stacks.**  
As well as vertical stacking is possible, this  
corner may be used for horizontal stacking as  
well, depending on laminate type and size.
