

# STANDARD

- **EckPack STANDARD: Made in Germany.**
- **EckPack STANDARD transports safely.**  
Modules are placed apart from each other.  
Each module just carries its own weight.  
No transport damage by dynamic peaks.
- **EckPack STANDARD needs less space.**  
Huge cardboard boxes are yesterday.  
Individual stacking outperforms fixed size.  
Easy splitting of deliveries is possible.
- **EckPack STANDARD saves cargo costs.**  
Full use of truck and container capacity!
- **EckPack STANDARD is automatable.**  
Laminate can be used within automated  
sorting and stacking systems.
- **EckPack STANDARD saves your money.**  
One element fits any module size.  
Multi usage costs less than one-way waste.
- **EckPack STANDARD is very strong.**  
One 110g corner carries up to 250kg.  
Long life is guaranteed.
- **EckPack STANDARD is environments friend.**  
Reusing reduces waste at construction site.  
Packaging reduction reduces CO2 emissions.  
Blue Angel Award demonstrates responsibility.
- **EckPack STANDARD allows double stacks.**  
Horizontal double stacks are possible. Individual  
Packaging, just the way, production and  
distributors need it.
