

# THERMIE

- **EckPack THERMIE : Made in Germany.**
- **EckPack THERMIE transports safely.**  
Collectors are placed apart from each other.  
Each module just carries its own weight.  
No transport damage by dynamic peaks.
- **EckPack THERMIE needs less space.**  
Huge cardboard boxes are yesterday.  
Individual stacking outperforms fixed size.  
Easy splitting of deliveries is possible.
- **EckPack THERMIE saves cargo costs.**  
Full use of truck and container capacity!
- **EckPack THERMIE is automatable.**  
Laminate can be used within automated  
sorting and stacking systems.
- **EckPack THERMIE saves your money.**  
One element fits any collector size.  
Multi usage costs less than one-way waste.
- **EckPack THERMIE is very strong.**  
One 300g corner carries up to 500kg.  
Long life is guaranteed.
- **EckPack THERMIE is environments friend.**  
Reusing reduces waste at construction site.  
Packaging reduction reduces CO2 emissions.  
Blue Angel Award demonstrates responsibility.
- **EckPack THERMIE allows multi stacks.**  
Horizontal double stacks are possible. Individual  
Packaging, just the way, production and  
distributors need it. It replaces racks.
