

- **EckPack TRIO : Made in Germany.**
- **EckPack TRIO transports safely.**
Modules are placed apart from each other. Each module just carries its own weight. No transport damage by dynamic peaks.
- **EckPack TRIO needs less space.**
Huge cardboard boxes are yesterday. Individual stacking outperforms fixed size. Easy splitting of deliveries is possible.
- **EckPack TRIO saves cargo costs.**
Full use of truck and container capacity!
- **EckPack TRIO is automatable.**
Laminate can be used within automated sorting and stacking systems.
- **EckPack TRIO saves your money.**
One element fits any module size. Multi usage costs less than one-way waste.
- **EckPack TRIO is very strong.**
One 60g corner carries up to 250kg. Long life is guaranteed.
- **EckPack TRIO is environments friend.**
Reusing reduces waste at construction site. Packaging reduction reduces CO2 emissions. Blue Angel Award demonstrates responsibility.
- **EckPack TRIO allows vertical stacks.**
As well as horizontal stacking is possible, this corner may be used for vertical stacking as well.
- **EckPack TRIO allows double stacks.**
Vertical and horizontal double stacks are possible. Individual Packaging, just the way, production and distributors need it.
